

Helpful Hints

How do I upload a video or picture?

1. First, create a free SchoolTube account.
2. To get your video or picture (media) up on the web follow the seven easy steps below:

7 Easy Steps to Put Your Media On SchoolTube

1. Login to www.SchoolTube.com.
2. Click the 'Upload' button (next to the search bar).
3. Enter your video's information in the required fields (all fields with a red asterisk are required).
4. Select a category and subcategory (up to three sets).
5. Read and check the three conditions of your upload. (Are you old enough, are you following SchoolTube's rules for uploading, and is there any copyright content used without permission?).
6. Click the "Browse" button, and select your media file from your computer.
7. Click the "Upload" button.

That's it! After your media has been uploaded, it will need to be approved by a moderator. Once it's approved, your media will be live on SchoolTube! If you are a moderator, the media is automatically approved.
