

How to Use Glogster for EDU – Creating Online Posters

Add text, audio, video, and more. Access from school or home. Save for more editing and Publish when you have finished.

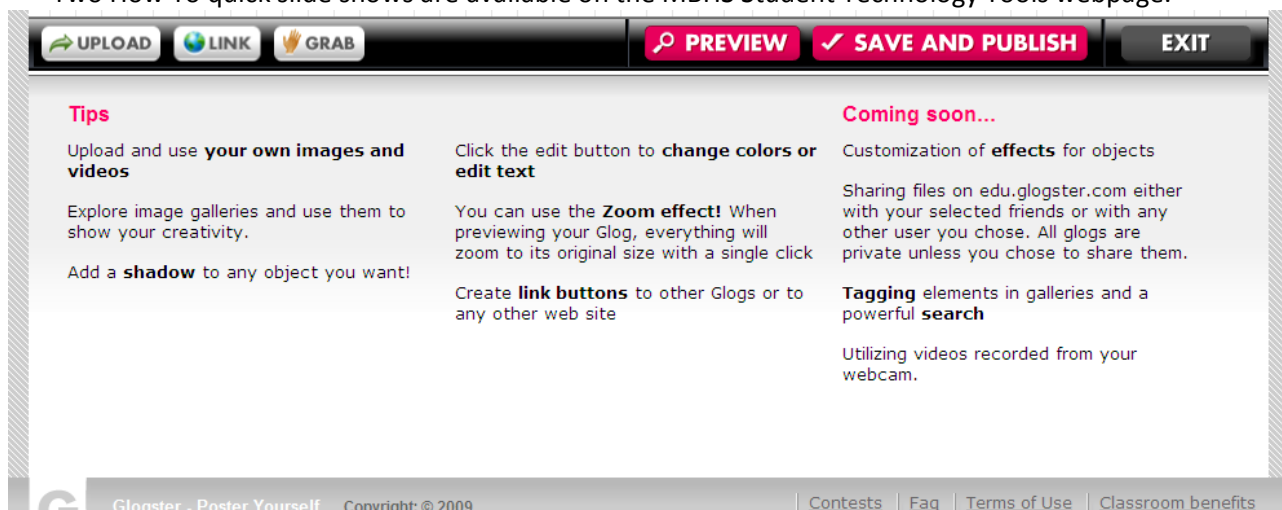

Enter nickname and password given to you by teacher.
Ms. Kay has the full list.

Profile Update

- Once you log in, click on Update Profile – enter your first name if you would like.
- Change the password if you would like.
- Do not give any personal information. It is not necessary.

Start Creating Your Glog

- Click Create a New Glog
- Scroll to the bottom of the GLOG to see simple instructions or read these on how to get started.
- Two How To quick slide shows are available on the MBHS Student Technology Tools webpage.

Start with your background or wall.

- Click on your Glog and select WALL.
- Scroll through the template selections, etc. Select your background and click OK.

Add a Title

- Click the Title button. View templates, make selection, and click Use It.
- Click on the object, click Edit and add your Title. Click OK when complete and move to desired location.
- Click object and handles will appear. Use handles to resize Title block.

Add Video

- Click Video button
- To link to a video on the web click the LINK option and enter the web address of the video.
- To upload a video click UPLOAD button and load your video. Be patient. It takes some time to upload a video.

I think you get it now. Enjoy creating a Glog. Let me know if you need any help.

Ms. Kay, MBHS Technology Coordinator (kayj@mtnbrook.k12.al.us)
