

Components of an Online Course

Students should have numerous opportunities to experience the following:

1. Online discussions (Forum)
2. Instruction and assignments online
 - Moodle(Resources and Activities)
 - Web quests
 - Online books
 - Other
3. Online Assessments
 - Moodle Quiz
 - ExamView
4. Classroom Response System (CRS)
5. Presentations through video conferencing
6. Written assignments and other correspondence emailed to the teacher and from the teacher.

The goal is to help students become independent learners and to expose them to methods often used in college courses.
