Help Your Child Become a Better Reader

Questions to ask your child while reading nonfiction text

What is the main idea of the text?

What did you learn from reading the text?

Are there any words that you do not know what they mean?

What are some new words that you learned?

Do you have any questions after reading this?

Were there any important features (charts, diagrams, pictures) that were important?

Where could you find more information about this topic?

Did you like this text? Why or why not?

Writing At Home

- Write letters and cards to family members and friends, and encourage them to write back!
- Encourage your child to write stories about their favorite things.
- Keep a journal of Summer activities.
- Read comics in the newspaper and let your child create their own.
- Create a newspaper and write articles about weekly activities.
- Use fun writing tools such as markers, gel pens, crayons, pencils, etc.
- Let your child create a shopping list before going to the store.
- Gather kids in the neighborhood to write a play.
- Advanced readers and writers might enjoy Mad Libs, while parents could create their own version of Mad Libs for beginning readers and writers.
- Take turns writing back and forth to your child! Leave a note by their bed or in their lunchbox.
- Play word games such as Wheel of Fortune and Hangman. Hangman is an especially great way to pass time in a doctor's office or restaurant!
- Have a place in your home where you display your child's writing!
- Encourage your child to plan their writing and revise drafts before publishing!
- Publish your child's writing! Not only does it make them feel special, but it also makes a wonderful keepsake. StoryJumper.com allows you to order hardcover books of your child's writing! You could also use programs such as Microsoft Photo Story to publish a digital version of their book! Simply scan in your child's drawings and record them reading their story. Publish and you can immediately send it to family and friends or burn to a disc to watch on television!

Building Writing Skills

Beginning

- Write from left to right with letters touching writing lines
- Place spaces between words – Use a finger, popsicle stick, etc.
- Use uppercase and lowercase letters
- Use a capital letter at the beginning of a sentence
- Use punctuation at the end of a sentence
- Use drawing, guided writing, and dictating to write
- Use letter/sound knowledge, sight words, and word walls to write simple words
- Write correct beginning and ending consonant sounds
- Understand there are different types of writing (lists, letters, etc.)

Intermediate

- Consistently use correct, basic capitalization and punctuation
- Write in complete sentences
- Write correct beginning, middle, and ending sounds
- Use and spell sight words correctly
- Be able to read own writing to share with others
- Organize sentences based upon one topic
- Plan Stories (brainstorm, list, graphic organizer)
- Create and publish a variety of writings (stories, lists, letters, etc.)
- Begin to use voice, audience, and purpose in writing

Advanced

- Continues to use sight words and additional grade level words correctly
- Consistently use correct capitalization, punctuation, sentence structure, tense, and subject/verb agreement
- Organize writing with beginning, middle, and ending
- Choose main topic to write about
- Add details to support main idea
- Use paragraphs
- Begin to use transitions (First, Second, Third, Last, Next, etc.)
- Use editing tools (dictionary, partner) to revise first draft
- Produce a variety of writings (poems, stories, letters, personal narratives)
- Follows the writing process

BUILDING Math Skills At HOME

Here are some simple things that you can do at home to help your child with math.

- Play board games as a family! Many of them encourage math development. Yahtzee (basic addition), Connect Four (problem solving), Card Games (basic addition and subtraction and ordering numbers), Candy Land (make your own game cards and use math facts instead of colors), Monopoly (money), and Battleship (coordinate graphs) are just a few to mention.
- Talk about the calendar with your child. Look forward to and countdown to special events such as vacations, birthdays, and holidays. Count the weeks and days to an event, and determine which day it will fall on.
- Help your child learn to count money by playing store with them. Use real coins and dollar bills.
- Use an empty egg carton as a counting tool to practice addition and subtraction skills up to 10. Simply place objects in the slots, and use the empty slots to count up to/from 10.
- Be on the lookout for shapes. Discuss the shapes you see. For a challenge, ask your child how many sides the shape has. (Example: A triangle has three sides. Two triangles would have six sides.)
- Help your child develop time skills by incorporating the clock into their schedule. At home, create a bedtime schedule (Example: Brush Teeth at 8:00; Bedtime story at 8:10; Bed at 8:30). Create a poster with the schedule, and hang it in your child's bedroom. Begin with easy times (7:00), and gradually progress to more difficult times (7:30 and 7:45).
- Involve your child in activities at home that use measurement such as picture framing and home improvement projects.
- Bake with your child. Have them read recipes and measure ingredients.
- Develop an understanding of fractions when eating or making a pizza by discussing how many slices there are, and what fraction of the pizza they are eating.
